

## **Lompoc Unified School District Service-Learning Teacher Pre-Survey**

Lompoc Unified School District (LUSD) has received a service-learning grant this year. Please take a few minutes to let us know what great things you're doing.

Please read the brief description of service-learning, then check those items in the survey which apply to you. This survey will establish a baseline of present service-learning activities, or community-service projects that can be easily adapted into service-learning activities.

“Service-Learning is an educational method that involves students in experiential activities that meet genuine community needs, while at the same time integrates with the academic curriculum.”

- ☐ My students participate in activities that develop a sense of civic responsibility.
- ☐ My students participate in one or more community service projects.
- ☐ I have students who participate in recycling, beautification, environmental clean-up, community gardens or food drive projects.
- ☐ I have students who participate in peer tutoring, cross age tutoring, conflict resolution counseling, or provide service to the mentally and/or physically challenged student.
- ☐ I tie one or more curricular units to a “hands-on” project that does or could address a “community” problem. (“Community” can be a school or any portion of the community at-large)
- ☐ I have students who provide service to senior citizens.
- ☐ My students participate actively in choosing or planning class projects.
- ☐ When working on class projects, I provide my students a time to reflect before, during and/or after the project.
- ☐ At the conclusion of a project, I provide my students with an opportunity to evaluate the project.
- ☐ I am interested in learning more about service-learning.
- ☐ I am willing to have my class participate in one service-learning project this year.

Please describe the specific activities identified in the above statements:
